## Results

If the addition of points brings two or more teams to an equal amount of points at the end of the round or pool play and positions are required. The final rank will be determined using the tie break process in order as follows:

A. When only 2 teams are on equal points the victor of the head-to-head within the competition shall be awarded the higher rank. Where there have been multiple rounds the winner of most head to head competition wins. eg: Game 1: Team X 5 goal vs Team Y 2 goals, Game 2: Team X 2 goals vs Team Y 2 goals. Team X has more wins against team Y and is ranked higher.

B. Goals For Goals Against Differential. Take the goals the teams score and subtract the goals against for all games in the round. eg: Team X scored 21 goals and had 16 against for a differential of 5 goals. Team Y scored 28 goals and had 17 against for a differential of 11. Team Y is ranked higher due to a higher differential.

C. Goals Against. The highest ranked team has the lowest goals against for the whole round. eg: Team X has 6 goals against and Team Y as 5 goals against. Team Y is ranked higher than Team X.

D. The team with the least penalty minutes for the entire round is ranked highest.

E. Coin toss Where more than 2 teams are tied. The tie break sequence is used to identify the highest rank team. Once the highest rank team has been removed begin the tie break process again from Head to head. eg: Team X, Team Y and Team Z are all on equal points. Team Y has the best Goals Against Differential so is ranked highest. Now Team X and Team Z need to be ranked so we start with head to head. Team X won the game against team Z. Final Ranking is: Team Y First, Team X second and Team Z third
